Crafting delicious soft drinks, it's in our nature.

Thirty-five years ago, William Watkins, a fifth-generation farmer, founded Radnor Hills after deciding that the exceptionally pure Welsh spring water on the family's farm deserved a wider audience.

Today, we're one of the UK's leading soft drinks manufacturers and over 12 Radnor Hills drinks are sold every second. That equates to more than 400 million soft drinks a year.

From our farm to your fridge

When we first found water on our family farm, we dug a borehole and discovered that we were surrounded by the very best natural spring water.

Naturally filtered through ancient layers of rock, our water is also rich in trace minerals.

Today we have a number of boreholes in our fields and the water we carefully extract reaches our production area within minutes for maximum freshness.

We're proud to be providing our customers across the UK with a range of products made with the best natural Welsh spring water.
